Contents Volume 39 (1989)

Research Papers

Geochemical characteristics of Greek thermal springs
A. Minissale and V. Duchi (Firenze, Italy), N. Kolios (Athens, Greece) and G. Totaro (Firenze, Italy) 1

Application of gravity and deep dipole geoelectrics in the volcanic area of Mt. Etna (Sicily)
M. Loddo (Bari, Italy), D. Patella (Naples, Italy), R. Quarto and G. Ruina (Bari, Italy), A. Tramacere (Naples, Italy) and G. Zito (Bari, Italy) 17

The time evolution of vertical ground movements in the Campi Flegrei caldera: a kinetic phenomenological model
M. Cortini (Napoli, Italy), A.M. Liquori (Roma and Venezia, Italy), E. del Pezzo (Catania, Italy) and A. Nassisi (Roma, Italy) 41

The Serra della Fastuca Tephra at Pantelleria: physical parameters for an explosive eruption of peralkaline magma
G. Orsi, L. Ruvo and C. Scarpati (Napoli, Italy) 55

Ground deformation in Askja, Iceland: its source and possible relation to flow of the mantle plume
E. Tryggvason (Reykjavik, Iceland) 61

Geochemistry of mafic volcanic rocks from the Lake Kivu (Zaire and Rwanda) section of the western branch of the African Rift
G. Marcelot and C. Dupuy (Montpellier, France), J. Dostal (Halifax, N.S., Canada), J.P. Rançan and A. Pouclet (Orleans, France) 73

Short Note

Does the solar cycle modulate seismic and volcanic activity?
A. Mazzarella and A. Palumbo (Naples, Italy) 89

Special Issue

The Lake Nyos Event and Natural CO_2 Degassing,
edited by G. Sigvaldason and F. Le Guern

International Conference on Lake Nyos Disaster, Yaoundé, Cameroon 16–20 March, 1987: Conclusions and Recommendations
G.E. Sigvaldason (Reykjavik, Iceland) 97

Mechanisms of the Nyos carbon dioxide disaster and of so-called phreatic steam eruptions
H. Tazieff (Paris, France) 109

Origin and age of the Lake Nyos maar, Cameroon
J.P. Lockwood (Hawaiian Volcano Observatory, Hawaii, U.S.A.) and M. Rubin (Reston, Va., U.S.A.) 117

The gas cloud of Lake Nyos (Cameroon, 1986): Results of the Italian technical mission
F. Barberi (Pisa, Italy), W. Chelini (Milan, Italy), G. Marinelli (Pisa, Italy) and M. Martini (Florence, Italy) 125

An inference on the process of gas outburst from Lake Nyos, Cameroon
S. Kanari (Sapporo, Japan) 135

The evolution of thermal structure and water chemistry in Lake Nyos
G.W. Kling (Woods Hole, Mass., U.S.A.), M.L. Tuttle (Denver, Colo., U.S.A.) and W.C. Evans (Menlo Park, Calif., U.S.A.) 151

The Lake Nyos gas disaster: chemical and isotopic evidence in waters and dissolved gases from three Cameroonian crater lakes, Nyos, Nonoun and Wum
M. Kusakabe (Misasa, Tottori-ken, Japan), T. Ohsumi (Abiko, Chiba-ken, Japan) and S. Aramaki (Tokyo, Japan) 167

The significance of siderite in the sediments from Lake Nyos, Cameroon
A. Bernard (Brussels, Belgium) and R.B. Symonds (Houghton, Miss., U.S.A.) 187

Origin of carbon dioxide emanation from the 1979 Dieng eruption, Indonesia: Implications for the origin of the 1986 Nyos catastrophe
P. Allard and D. Dajlevic (Gif sur Yvette, France) and C. Delarue (Rueil-Malmaison, France) 195

The Sénèze maar (French Massif-Central): Hypothesis regarding a catastrophe occurring about 1.5 million years ago
J. Couthures (Gif sur Yvette, France) 207
